

## Disposable Scalpel

### About Us

PL Medical Co., LLC offers disposable scalpels – the same top-quality as what doctors are using – with exceptional value that puts them a cut above the rest.

Our disposable scalpels are known for their precision and assure reliability and durability to the user. Entrusted with the confidence of eminent surgeons, our disposable scalpels are trustworthy and have been manufactured with the invaluable inputs from scientists and R&D professionals all over the world.

### Advantages

By using a disposable scalpel in place of a surgical blade (fitting the blade on a re-usable handle) it reduces or even prevents the incidences of injuries that can occur during the process of fitting or removing contaminated blades from handles. Occupational illness arising from cross infection (particularly of highly infectious and life threatening diseases such as HIV/AIDS, hepatitis B and C) caused through injuries sustained during the removal of blades from handles are lessened. Since the scalpels are meant for one time use only, the sterility of a freshly opened disposable scalpel is assured unlike in the case of re-usable handles.

While carrying out a surgery with disposable scalpels, a surgeon can have an approximate measurement of the cut made by him/her with the help of graduated scale of the handle during or after the completion of the surgery.

After use, the disposable scalpels have a protective cape/guard for the blade that can be used so the scalpel can be safely disposed in the operation theater/room disposal container. As a result there is no possibility of any risk involved due to puncture caused by the sharp blade.

### Applications

- Primary Care
- EMS
- Podiatry
- Occupational Health
- Orthopedics
- Corrections

### Product Description

- Cost-effective
- Uncompromised quality and reliability
- Superior cutting edge
- Plastic handle with tempered stainless fine steel blade
- Protected with polyethylene blade guard
- Packed in peel pack medical grade paper
- Being a “ready to use” sterile product it is useful for immediate surgery
- Available in carbon and stainless steel (sterile and non-sterile)
- **100% Satisfaction Guaranteed**

### Sizes Offered:

#### Sterile:

Item#	SPECS	PKG	Price
DS10	#10	Box/10	\$4.50
DS11	#11	Box/10	\$4.50
DS12	#12	Box/10	\$4.50
DS15	#15	Box/10	\$4.50
DS22	#22	Box/10	\$4.50
DS23	#23	Box/10	\$4.50

#### Non-Sterile:

Item#	SPECS	PKG	Price
DSNS10	#10	Bulk/100	\$30.00
DSNS11	#11	Bulk/100	\$30.00
DSNS12	#12	Bulk/100	\$30.00
DSNS15	#15	Bulk/100	\$30.00
